**Who we are:** The Meramec Adventure Learning Ranch is the therapeutic wilderness and adventure arm of Great Circle. Using the transformative power of the wilderness and adventure, the Ranch is dedicated to serving individuals and families whom much of the world has given up on, including youth struggling with traumatic pasts, youth in residential treatment, youth on the Autism Spectrum, and Wounded Warriors. The ranch has quickly grown to be one of the most extensive adventure bases in the Midwest and recognized on a national level. Located on 1,200 acres in Steelville, Missouri, the Ranch annually serves around 8,000 participants during year-round programming.

**What you get to do:** The ranch is a unique program; the only one of its kind in Missouri and one of the few therapeutic adventure programs left in the country that serve youth in the state system. The MALR is looking for Summer Guides to facilitate the 10-week summer adventure program with youth in residential treatment. Youth are between the ages of 6-18, have experienced histories of severe trauma and abuse, and are working through significant emotional and behavioral challenges. Each guide is assigned a group of 10 kids and 2 cottage staff and leads them through the week’s adventures. During these trips, adventure activities such as ropes courses, team challenges, climbing, lake and aquatic adventure activities, and the outdoors itself is used as a catalyst to build relationships and produce victories that grow awareness, efficacy, connection, purpose, and hope.

Adventure experiences are not an escape from the daily grind. They are reality where, in an “off-balance” environment, the true self always eventually surfaces and must be faced, concrete victories are earned, natural consequences are plentiful, roles and gifts are discovered, and positive relationships are built. Evidence bears out that these experiences become defining moments for young men and young women growing to become the people they were created to be.

You can be a part of this critical program and play a vital role in the life stories of the incredible individuals we are honored to stand beside!

**What you would get to do in this position:**
- Camp on-site with the full-time camp staff during Adventure Camp.
- Lead groups through daily activities of team courses, challenge courses, lake adventures, climbing, biking, and much more.
- Facilitate group processing and individual growth throughout each activity and at all times as well as maintaining safety.
- Facilitate your group in daily camp routine and living, evening activities, and special events.
- Take every opportunity to tell others about the Ranch, our mission, and about the young men and women we serve.
- Become an engaged active part of the Ranch Family as well as the local community.
