Meramec Adventure Ranch is Great Circle's therapeutic wilderness and adventure arm. Using the transformative power of the wilderness and adventure, the Ranch serves children and families, including those struggling with traumatic pasts, youth in residential treatment or on the autism spectrum, and Wounded Warriors. Nationally recognized as one of the most extensive adventure bases in the Midwest, it is located on 1,200 acres in Steelville, and serves more than 8,000 people through year-round programming.

What you'll do: The Ranch is the only one of its kind in Missouri and one of the few therapeutic adventure programs in the country that serve youth in state custody. For 10 weeks, Summer Guides facilitate the weekly therapeutic summer adventure program for youth in residential treatment, siblings separated by foster care, and youth on the autism spectrum. Campers are ages 6-18, have experienced histories of severe trauma and abuse, and are working through significant emotional and behavioral challenges.

Each guide leads 10 kids and 2 cottage staff through the week's adventures, which includes a variety of outdoor adventures and team challenges designed to build relationships and produce victories that grow efficacy, connection, purpose, and hope. Living in tents in the woods, cooking over a fire, activities including ropes courses, team challenges, horseback riding, climbing, kayaking, aquatic adventures, land navigation, all designed to grow campers' confidence, relationships, and heal from past trauma.

These experiences help campers thrive in an "off-balance" environment where they face personal challenges, address natural consequences, discover their true self, earn victories, and build positive relationships. It can be a defining moment for both you and the camper when a young person begins to grow into the people they were created to be!

Your opportunities:

- Camp on-site with the full-time camp staff during Adventure Camp.
- Lead groups through daily activities of team courses, challenge courses, lake adventures, climbing, biking, and much more.
